

Reflection note for mentors

The following questions will speed up your learning and improve your results. Not all questions will be useful, simply answer those which feel most relevant or helpful. Writing by hand is best, as this helps your ability to reflect and gain insight.

1. What went well in that session?

- How did I contribute or affect that?
- How can I build on that going forward?

2. What went less well?

- How did I contribute or affect that?
- How can I improve or support this going forward?

3. As a mentor, how can I be even more effective?

- Do more of/less of
- Make more important
- Shift my focus or intention
